HIGH PAW FOR MEMEL CVC

The Memel CVC has been active in the Zamani Township in the Free State since September 2010. A local resident, Mr George Sibeko, recently commented on the improved general condition of pets in the area, as well as the change in attitude of the residents to treatment of pets should they fall ill or get injured.

WINNER OF THE NAME THE MASCOT COMPETITION:

Thank you to everyone who supported the Name the Mascot Competition.

We are proud to announce the names of our Mascots:

Congratulations and our thanks go to Elizette de Jager who has won the R5000.00 sponsored by ABSA AgriBusiness for her submission of the chosen names.

She influenced the decision with the following motivation for her entries: "Humans make more and more use of electronic communication. In the process they tend to forget about the natural ways of communication."

What this does to the human race is one story....what it does to the Animal Kingdom, is a SAVA-CVC issue. Our pets (and abandoned animals) depend on us, and need us to understand their needs. The SAVA-CVC mascots are modern communication lines for these animals. They will help and remind people to "listen" to the natural communication of animals."

WHAT HAPPENED IN JANUARY?
